9 Projects Delivered • 13 Certifications • 6+ Tools Mastered

PROFESSIONAL SUMMARY

Junior Data Analyst with hands-on experience transforming raw data into clear, actionable insights. Skilled in Excel, Power BI, SQL, and Python, with a strong foundation built through a Data Analysis Diploma and 8+ real-world dashboard projects covering sales, customer segmentation, churn analysis, HR analytics, and supply chain data. Detail-oriented and curious, with a track record of turning numbers into decision-ready stories for stakeholders.

EDUCATION

Bachelor of Science in Mathematics

Faculty of Science, Mansoura University

PROFESSIONAL EXPERIENCE

Pharmacist Assistant | Pharmacy | Mansoura, Egypt | 2 Years

- Delivered accurate, detail-oriented service handling customer inquiries, inventory tracking, and order accuracy daily.
- Built strong organizational and data-handling discipline through consistent record-keeping and stock management.

PROJECTS

8+ dashboard and database projects covering sales, HR, real estate, and customer analytics (full case studies in the linked portfolio):

Airline Booking Behavior Analysis | Excel · Power Query · Pivot Tables

- Analyzed 50,000+ bookings; built an interactive dashboard — Internet channel led with a 15.48% conversion rate.

AdventureWorks Revenue & Operations Analytics | Excel · Data Modeling · Pivot Tables

- Built a structured data model with fact/dimension tables to track revenue, profit margin, orders, and retention by region.

Over Glowed Data – Cosmetics Analytics | Excel · Power Query · Pivot Charts

- Analyzed \$3.85M in sales across 30,000 orders; found online sales drove 65% of total revenue with 26.6% YoY growth.

HR Analytics: Headcount, Retention & Turnover | Power BI · DAX

- Tracked a workforce of 1,102 employees; measured an 89.47% retention rate and identified voluntary-exit drivers behind a 32.48% turnover rate.

Soly Vie – Real Estate Sales Intelligence | Power BI · DAX · HTML/CSS

- Designed a data model from scratch tracking EGP 3,874M in project value across 533 units, with a 56.4% lead-to-buyer conversion rate.

Customer Churn Analysis Dashboard | Power BI · DAX

- Analyzed churn behavior for 7,000 telecom customers, identifying electronic-check payers and fiber-optic users as the highest-churn segments.

Morshedy Group – Real Estate Collection & Portfolio Analytics (Team Project) | Power BI · DAX · HTML/CSS

- Analyzed a portfolio of 8 residential projects (3,000+ units, EGP 18.6B customer portfolio) to show where collection lags delivery and where bank concentration creates risk; delivered per-project recommendations (Lake Front 6 as the opportunity, Rihana as the challenge).

FIFA World Cup 2026 – Analyst's Matchday Report | Power BI · DAX · HTML/CSS

- Built an interactive Power BI report on the 2026 World Cup (48 nations, 104 matches) with custom DAX-driven HTML visuals for team profiles, groups, top scorers, goals, and stadiums, plus a companion web report.

University Management System – ERD | SQL · ERD · Normalization

- Designed a full normalized database schema modeling ternary relationships, weak entities, and derived attributes for a university system.

SKILLS

Microsoft Excel: Pivot Tables & Pivot Charts, Power Query (data cleaning & transformation), Data Modeling, Advanced Formulas, Conditional Formatting, Slicers & Timelines, Dynamic Dashboards.

Power BI: DAX (measures & calculated columns), Power Query, Data Modeling, Interactive Report Design, Custom HTML/CSS Visuals.

Database & Querying: SQL, ERD Design, Data Normalization, Relational Database Modeling.

Programming & Web: Python, HTML, CSS.
